DAUGHTER WAS WEAK AND FRAIL

For a Long Time Lacked Strength to Walk Far—Nothing Seemed to Help Her.

FRIEND SAID A-1-M WAS WHAT SHE NEEDED

"My daughter's condition worried me a great deal. She was weak, rundown and troubled all the time, coming into womanhood with irregularities which seemed to weight her down terribly and sap her strength and energy. She could walk but a little ways without resting," says B. H. Carter, of Bassett, Va., just a few days ago.
A friend recommended Acid Iron Mineral to me, and my daughter hadn't taken but two bottles before she was well and strong, and going about the housework feeling wonderfully improved. The results have been so remarkable in her case I believe Acid Iron Mineral will do all that is claimed for it and take pleasure in recommending it to all. I consider it a God-send to suffering humanity.
The above enthusiastic endorsement of Acid Iron Mineral, the great Iron remedy, which thousands of people praise, proves how splendid it is as a tonic for the blood, kidneys, bladder and digestion.
Acid Iron Mineral may be obtained at most drug stores in large or small bottles. A teaspoonful in a glass of water makes a dose. It helps the blood, drives out uric acid and other impurities and strengthens one almost from the first dose. The appetite is stimulated, digestion is helped and the blood enriched, bringing back that rosy health glow to the cheeks and a sparkle to lustrous eyes.
Note—Acid Iron Mineral is just a highly concentrated natural mineral iron, tested and bottled by the Ferrandine Chemical Co., of Roanoke, Va., the leaders of the deposit from which it comes. It is non-alcoholic and non-injurious. Does not affect the teeth, cause constipation or harm digestion as ordinary iron is apt to do. Get a bottle to-day.—Adv.

ADVANTAGE WITH BRITISH

One of Germany's Prominent Generals Refers to Their Points of Superiority.

(By Associated Press) AMSTERDAM, October 27.—General Sixt von Arnim, one of Germany's prominent commanding generals, in an interview in the Korrespondenz Norden, said the British troops were two or three times more numerous than the Germans, and that the British batteries were equipped with far more heavy guns than the Germans possessed.
A further advantage for the British, the general said, was that they had 80,000 soldier laborers for bringing up munitions, while the Germans who serve the guns have to feed them.
General von Arnim also commented on the wholesale expenditure of ammunition by the British. He said the transport of munitions from England, owing to the shortness of the voyage, was difficult entirely to suppress, but that the United States appeared to be greatly hampered by the U-boat war in the delivery of munitions, and that the munitions themselves were of bad quality.

Y. M. C. A. PLANS CAMPAIGN TO RAISE \$35,000,000

Wants to Carry on War Camp Work on Extended Lines, Both at Home and Abroad.

EACH DISTRICT GETS QUOTA

That for Eastern Department Is \$15,500,000, of Which Virginia Is Expected to Raise \$400,000.—Russia, France and Italy Ask Aid.

(By Associated Press) NEW YORK, October 27.—A campaign to raise \$35,000,000 for Young Men's Christian Association war camp work on extended lines, both among the forces of the United States at home and abroad, and also among the troops of Russia, France and Italy, will begin on an intensified nation-wide scope, it was announced here to-day by the association's war work council.
The \$35,000,000 raised last April, it was shown, has proved inadequate to meet conditions arising from the fact that army mobilization has gone forward more rapidly than anticipated.
"It was expected that only about 1,000,000 men would be called out by December 21," the announcement says. "It was not dreamed that nearly double that number would be assembled. Instead of 1,000,000, a small army of 2,500 had to be provided to adequately care for the soldiers, and instead of 200 buildings, costing \$3,000 each, the call came for 500, at a cost of from \$5,000 to \$8,000."

It has been decided that \$11,000,000 will be required for troops in this country until next July, and \$12,000,000 for troops in action abroad, it being estimated that there will be 3,200,000 American fighting men to care for. The announcement says that the association has not forced itself into the situation, but has been called from without to come to the aid of the government.

The President making the request, and by official proclamation giving the Young Men's Christian Association official recognition as a part of the army and navy work.

A call has also come from Russia to set up Young Men's Christian Association work among its men, and it is proposed to spend \$5,000,000 for this, while France and Italy have made similar requests, for which it is planned to spend \$1,000,000 in each country.

For raising the \$35,000,000 wanted in this country the campaign has been laid out in accordance with the military departments. The quota for the Eastern Department is \$15,500,000, of which Virginia is expected to raise \$400,000.

The Northeastern Department is to be asked for \$3,500,000, the Southeastern for \$1,500,000, the Central for \$12,500,000, the Western for \$1,250,000, and the Southern Department for \$750,000.

BIG EATERS GET KIDNEY TROUBLE SAYS AUTHORITY

Take a tablespoonful of Salts to Flush Kidneys if Back Hurts.

Omit all meat from diet if you feel Rheumatic or Bladder bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.
